## NATURAL-BORN PREMIUM WINES

---

Respect of the land and the vines rules over our list of requirements. Our grapes achieve at least HVE 3 standards.

Around the vineyards, hectares of scrubland ensure that the vines are protected. We maintain the garrigue and treasure it as an essential element of our Mediterranean landscape. We limit watering of the vineyards, which develops the root system's depth, and its ability to collect minerals. To ensure both elegant and aromatic wine, we aim at low yields.

The grapes are harvested by hand to ensure perfect integrity of the grapes.

The whole range is crafted with the utmost care and attention to detail. Temperature control ensures the clearest aromatic expression and softest quality of tannins.

The red grapes come from our oldest vines and are hand-picked to then undergo carbonic maceration. The bunches are vatted intact, and each berry becomes a cell of maceration for the pulp to extract color and aromas from the skin.

Selected and defined by Tiffany Tobey, the blends of both white and red wines are aged in wood to further polish the tannins and add aromatic complexity. Our barrels of French oak add to the luscious expression of the grapes.
